Microchips with Temperature Scan

Microchips are permanent identification and are your pet's best chance of getting home again if they are lost. But a microchip is only as good as the information in the database. Please take a few minutes this month to check your pet's database registration and make sure the phone numbers on file are yours.

HomeAgain microchips now come with Temp Scan. That means we can take your pet's temperature with a microchip scanner and your pet does not have to deal with the indignity of a rectal thermometer!

HomeAgain microchips come with lifetime registration and unlimited database updates.

If your pet does not have a microchip, call us today.

Chiropractic & Laser

*Dr. Karen Hannah will
be here Thursdays Aug.
3, 17, & 31. Please call
now to schedule your
pet's appointment!*
